Key Benefits of the Performance Alliance Europe for your Company

The network offers internationally operating companies a quick overview of renowned project partners in certain service areas in the Central & Eastern European region. It is a trustworthy online platform for implementing cross-border projects.

The companies of this network commit themselves to handle these projects to the full extent of their professional expertise in a state-of-the-art manner. Every partner ensures appropriate support according to their regional focus. Top Level Consulting is implemented cross-border with local expertise applied to maximum effect.

If required, the members of the Performance Alliance Europe network will guarantee a One-Stop Shop operation, i.e. projects can be handled in a prime contractorship manner. There is one point of contact that will be responsible for coordinating the activities of all partners on a European scale and ensure the success of the project.

The Supervisory Board of the Performance Alliance Europe is responsible for selecting all partners and thereby guarantees a maximum level of quality and reliability of all participating partners.

Partners in the Performance Alliance Europe

Cooperation partners of the Performance Alliance Europe have the opportunity to present themselves and their services in this competitive environment and position themselves as a project partner for internationally oriented clients.

With one click, these can access a pan-European pool of experts (Management, Law, Taxes, IT, Human Resources and PR) as well as use their Know-how for projects. Thereby their own clients can be offered substantial advantages - for example a quicker, more flexible and more efficient handling of complex cross-border projects as well as a professional and reliable support.

The Performance Alliance Europe is a reliable tool for selecting pan-European project partners. All listed partners are reliable consultants who have to re-qualify themselves for membership through reference projects and international activities on a yearly basis.

Within the scope of several annual events, the partners have the opportunity to establish and enhance contacts, increase their technical expertise and exchange their experiences.

Depending on the offered services, we differentiate between three types of partners: Leading Partner, Certified Partner und Registered Partner.

Events of the Performance Alliance Europe

The Performance Alliance Europe organizes yearly 1-2 international partner events; within the scope of these events the partners have the opportunity to become acquainted with the other partners and to exchange expert knowledge within the network. Please take updated information about current events from our website: www.performancealliance.eu

Laura Bolchis, under l.bolchis@performancealliance.eu or Daniela Hofmann under info@performancealliance.eu will be happy to answer any queries regarding the various models of partnership as well as further information regarding the network.
